

Mercy Medical Center Redding

Mercy Medical Center Redding offers comprehensive health care to nearly 300,000 residents in a six-county region. It is one of only two Level II trauma centers and the only Level III neonatal ICU north of Sacramento. Mercy Medical Center Redding is a 266-bed regional medical center providing inpatient and outpatient services as well as specialized cardiovascular care, stroke care, orthopedics, neurological surgery, comprehensive cancer care, maternity care, and a robust robotic surgery program. In addition, the hospital's network of care includes Mercy Home Health and Hospice and Dignity Health Connected Living, which serves nearly 72,000 meals a year. The medical staff has over 250 active members who partner with skilled professionals, support staff and helpful volunteers to provide innovative medical services to the North State communities. Mercy serves as a local community hospital as well as a referral center for a vast region from the Oregon border two hours north, halfway to Sacramento (two hours to the south), east to Nevada and west to the Pacific Ocean. Mercy Medical Center Redding is sponsored by the Sisters of Mercy of Auburn, along with St. Elizabeth Community Hospital in Red Bluff and Mercy Medical Center Mt. Shasta.
